Chief
John J. Schulte
Director of Public Safety

Mr. Mark Wollenweber
City Manager, Grosse Pointe Shores, Michigan 48236

April 1, 2012

Dear Mr. Wollenweber:

It is my privilege to provide the Annual Report for the Grosse Pointe Shores Department of Public Safety. The Annual Report for 2011 is a record of the activities, events and training related to law enforcement, fire related activities and emergency medical services.

The year 2011 marked many operational changes to the Public Safety Department. On June 1, 2011, Grosse Pointe Shores entered into a dispatch and lockup services agreement with Grosse Pointe Farms, Department of Public Safety. The general agreement transfers to the Farms the function and responsibility of providing emergency dispatch services and designates the Farms as the Primary Public Safety Answering Point (PSAP). In addition, under the lockup agreement, the Farms was contracted to provide prisoner detention and housing.

On October 1, 2011, Grosse Pointe Shores went live with CLEMIS, (Courts and Law Enforcement Management Information System). The key principle of CLEMIS is the sharing of data between law enforcement agencies in a regionally-operated and maintained database.

CLEMIS also provides the web based Records Management System CLEAR, that allows the agency to properly record, store, and retrieve departmental and criminal records as well as track all evidence and property that comes through the Department. CLEMIS Mobile Data Computers (MDCs) now installed in all Grosse Pointe Shores scout cars, have the ability to communicate wirelessly with Dispatch and are able to receive or initiate dispatch incidents. Public Safety Officers utilizing the in car Mobile Data Computers can directly receive warrant information and driver's license status from the Michigan Law Enforcement Information Network (LEIN) and Secretary of State (SOS). Additional functions of CLEMIS include: E-Ticket, Impound, Crash and Property Room which enters the data automatically into the records management system.

I am reporting that our Part I crimes, which are categorized by the F.B.I. as the eight most serious offences against persons or property decreased by nine from a total of 17 in 2010, to 8 in 2011 or (47%). The reduction in Part I crimes for 2011 can be attributed in part to the 2010 apprehension and conviction of two habitual larceny suspects. Part II identified crimes also decreased in number from 246 in 2010 to 223 in 2011 or (9%). The number of vehicular accidents increased from 38 in 2010 to 42 in 2011. The consistent enforcement of our traffic laws has helped to keep our community safe for vehicle and pedestrian traffic.

In the area of Emergency Medical Services, we saw a slight decline in our calls for service. Our paramedics and EMT's responded to 172 calls for service compared to 190 in 2010. Thanks to a generous grant from St. John Hospital and Medical Center, we were able to add 12 Lead EKG's to our EMS division. This advancement in technology has been shown to dramatically increase the survival rate of our cardiac patients.

Our response times for mutual aid medical emergencies average less than four minutes with response times locally averaging between 2 and 3 minutes, while the national average for EMS response times is eight minutes. In reviewing our EMS data, we found that 56% of our EMS calls are for patients between 65 and 84 years of age, with an average age of 69 years old.

The number of structure fires increased by four this year with one significant 4 Alarm response to 590 Shelden Road. On February 8th 2011 at 4:52 PM, all apparatus responded to a working fire in the third floor attic. Firefighters from six agencies assisted under the Grosse Pointe Mutual aid agreement and worked in zero degree temperatures for eight hours to bring the blaze under control. I am pleased to report that there were no significant injuries related to this response.

Grosse Pointe Shores Officers remain committed to Police, Fire and EMS training and this is reflected in their competent delivery of service to our residents. I am proud to be a member of this Department and serve next to these dedicated professionals.

In closing, I would like to take this opportunity to thank Mayor Kedzierski, the City Council, the City Administration and our residents for their dedicated support of the Public Safety Department.

Respectfully,

A handwritten signature in black ink, appearing to read 'John J. Schulte', with a stylized, cursive script.

John J. Schulte, Chief
Director of Public Safety

EMERGENCY MEDICAL SERVICE DIVISION

In 2011, the Department saw a decrease from the previous year in providing Advanced Life Support Services. Thanks to a generous grant from St John Hospital Medical Center, we were able to add 12 Lead EKG's to our EMS division. This advancement in technology has been shown to dramatically increase the survival rate of cardiac patients.
